

#### Dear Sirs

We, [Company Name], fully understand the contents of the "NSK Group Green Procurement Standard (NSK E 001)" (hereinafter, referred to as the "Green Procurement Standard"), and hereby agree that we will be bound by and comply with the terms and conditions of the Green Procurement Standard, including the following matters:

- For the purpose of meeting the regulations of relevant countries and the requirements from the customers of the NSK Group, [Company Name] shall establish an assurance program for managing environmentally hazardous substances included in the products to be supplied to the NSK Group ("Substances"), pursuant to the Green Procurement Standard.
- 2. At the request of the NSK Group, [Company Name] shall provide the NSK Group the information regarding Substances in accordance with the procedures provided in the Green Procurement Standard.
- 3. [Company Name] warrant that any and all information provided to the NSK Group, regardless of the form in which it is provided (whether written, in electronic or other format), is fair, true and accurate.
- 4. In the event of breach of the terms and conditions provided in the Green Procurement Standard, including without limitation, supplying the products containing, within or on the surface, NSK prohibited substances to the NSK Group, [Company Name] shall (1) correct such breach and (2) indemnify and hold harmless the NSK Group from and against any and all damages, claims, costs and expenses arising out of such breach.

Yours sincerely,

[Company Name]

Form 3

# **Investigation Sheet for Environmental Preservation Activity (2/2)**

3. Environmental preservation activities:

Fill in this portion of the questionnaire only if your company has neither obtained nor is scheduled to obtain the ISO14001 certification. For "Yes," fill in " $\circ$ "; for "No," fill in " $\times$ "; for not applicable, fill in " $\_$ "

[Corporate philosophy and policies]		
(1) We have a corporate philosophy regarding environmental preservation.	[	]
(2) We have environmental policies and a written pledge for continuous improvement and		
pollution control.	[	]
(3) We pledge to comply with legal control as is provided in the environmental policies.	[	]
(4) All the employees at our company are committed to implementing environmental		
policies, and the policies are available to third parties.	[	]
(5) We fully understand the requirements of the NSK Group Green Procurement Standard and		
are implementing them throughout the company.	[	]
[Planning/organization]		
(6) We have clear objectives and goals on environmental preservation.	[	]
(7) The departments/persons responsible for accomplishing the objectives and goals are		
clearly designated.	[	]
(8) We have action plans to accomplish these objectives and goals.	[	]
[Environmental evaluation system]		
(9) We control/evaluate water pollution and report to the top management: thus, we are		
making demonstrable efforts to improve the state of the environment.	[	]
(10) We control/evaluate air pollution and report to the top management: thus, we are making		
demonstrable efforts to improve the state of the environment.	[	]
(11) We control/evaluate noise/vibration and report to the top management: thus, we are making		
demonstrable efforts to improve the environment.	[	]
(12) We control/evaluate waste disposal and report to the top management: thus, we are making		
demonstrable efforts to improve the state of the environment.	[	]
(13) We control/evaluate energy (electricity, gas, fuel, etc.) and report to the top management:		
thus, we are making demonstrable efforts to improve the state of the environment.	[	]
(14) We control/evaluate biodiversity and report to the top management: thus, we are making		
demonstrable efforts to improve the state of the environment.	[	]
(15) We are not using prohibited substances within our own production processes.	[	]
(16) A product assessment system for environment is in place.	[	]
(17) A system to be used in emergency situations is in place.	[	]
(18) An internal environmental audit system is in place.	[	]
(19) A document control system is in place.	[	]
[Education/training and information service]		
(20) We are providing education on environment-related matters.	[	]
(21) We are providing education/training to those employees involved in special tasks which		
could significantly affect the environment, and we maintain a current list of such employees.	[	]
(22) We provide information on environmental preservation.	[	]

## Composition Investigation Sheet of Product Delivered (As a general rule, a disclosure of 100 mass % is required)

Name of company:									
Name of office/facility:									
Name of person responsible:									
E-mail :									
Date of entry :	(Y)	(M)	(D)						

In accordance with the IMDS (International Material Data System), auto manufactures request NSK to disclose 90 mass % or more of the chemical composition of NSK products. It is the common rule for the IMDS to disclose at least 90 mass %: i.e., a non-disclosure of only 10 mass % or less is allowed. As a rule, NSK requests its suppliers to disclose 100 mass %. However, if there is some restriction due to know-how protection or the like, please disclose at least 90 mass %. Regarding the questions concerning the investigation of substances posed in the Investigation Sheet for Environmentally Harmful Substances, please answer them all without fail.

1. Information on the products to be supplied:

- 1) Name of product to be supplied:
- 2) Number of supplied product (name of parts):
- 3) Material manufacturer:
- 4) Name of material (NSK material code):
- 5) Name of material (manufacturer's material code):
- 6) Applicable public material standard:

## 2. Chemical composition of products to be supplied

Name of chemical substances	CAS No.	Content rate	Remarks

Note) If the materials used are common and can be grouped, mention the grouping in the "Remarks" column or give it as information on the products to be supplied. If there are plural products to be supplied and it is cumbersome to fill in information about all of them, use additional sheets by copying this sheet or attach separate documents to this sheet.

## Form9-1

#### NSK Environmentally Harmful substances Control System Check Report

The initial supplier (manufacturer) that delivers parts, materials, sub-materials, etc. to NSK Group is referred to as Company A, and the secondary supplier (manufacturer) as Company B. Likewise, the third and fourth are referred to as Company C and Company D.

This check sheet will be used for Company A's self-audit and NSK Group's on-site audit.

Company name :

Office/Plant name :

Address :

Date of preparation :

<Acquisition of ISO14001 certification> (In the case of registration with chemical material control system, mention is unnecessary.)

Date of Acquisition :

Assessment organization :		
Confirmation item and result	4.	
Confirmation items	No. of items	Evaluation points
1. Development and maintenance of environmentally harmful substances control systems at Company A	10	0
<ol><li>Certification of non-inclusion of NSK prohibited substances in products delivered to NSK Group</li></ol>	6	0
3. Certification of non-inclusion of ELV & RoHS substances in products delivered to NSK Group	3	0
4. Clarification of requirements by Company A for Company B and thorough control over suppliers	10	0
5. Thorough control of products purchased from Company B	10	0
Regarding "Specific evaluation content of audits", points are to be given with the full points being either 5 out of 5 or 10 out of 10. A score of 0 (in	Total	0
bold font) indicates that Green Procurement Standards are not met.	Points/full score	%
